

MORRE ZHAO ENHAN

Beijing, China | morrezhao@stu.pku.edu.cn | +86-188-1158-8292 | morrezhao.github.io | GitHub

Education

Peking University <i>Ph.D. in Intelligence Science and Technology; advisor: Prof. Di He</i>	Beijing, China Sep. 2025 - Present
Peking University <i>B.S. in Computer Science (Honors); honors track in AI and computing</i> • GPA: 3.76/4.00.	Beijing, China Sep. 2021 - Jun. 2025
The University of Hong Kong <i>Exchange student, Department of Engineering, Computer Science; full scholarship</i> • Exchange GPA: 3.92/4.30.	Hong Kong, China Sep. 2023 - Dec. 2023
University of California, Berkeley <i>Summer school</i> • Exchange GPA: 4.00/4.00.	Berkeley, CA Jul. 2024 - Aug. 2024

Research and Internship Experience

Ant Group <i>Research Intern</i> • Research on self-evolving agentic systems.	Beijing, China Dec. 2025 - Present
Peking University <i>Research Assistant, advised by Prof. Di He</i> • Work on post-training large language models and evaluating their mathematical reasoning and agent capabilities.	Beijing, China Feb. 2025 - Present
Shanghai AI Lab <i>Research Intern, AI4Science Group</i> • Fine-tuned large language models for chemistry tasks, with a focus on organic reaction condition prediction.	Beijing, China Aug. 2024 - Jun. 2025
The University of Hong Kong <i>Research Assistant, advised by Prof. Qi Zhao</i> • Studied quantum computation and quantum simulation, including molecular Hamiltonian simulation workflows.	Hong Kong, China Sep. 2023 - Dec. 2023

Publications

- Danlong Yuan, Wei Wu, **Enhan Zhao**, Zhengren Wang, Xueliang Zhao, Huishuai Zhang, and Dongyan Zhao, “SWE-MiniSandbox: Container-Free Reinforcement Learning for Building Software Engineering Agents,” *ICML 2026*. [arXiv]
- **Enhan Zhao**, Wei Wu, Yuanrui Zhang, Xueliang Zhao, and Di He, “Ouroboros-Spatial: Closing the Data-Model Loop for Spatial Reasoning,” *arXiv preprint arXiv:2606.11719*, 2026. [arXiv]
- Zhiwei Wang, Yaoyu Zhang, Pengxiao Lin, **Enhan Zhao**, Weinan E, Tianhan Zhang, and Zhi-Qin John Xu, “Deep Mechanism Reduction (DeePMR) Method for Fuel Chemical Kinetics,” *Combustion and Flame*, 2024. [DOI]

Teaching

Teaching Assistant, Introduction to Computer Science and Programming (CS50), Peking University	Spring 2024
Teaching Assistant, Introduction to Computing (CS101), School of Data Science, Peking University	Fall 2024
Teaching Assistant, Generative Modeling, Peking University	Fall 2025

Awards and Honors

Chinese Chemistry Olympiad, Gold Medalist	Nov. 2020
China Merchants Securities Scholarship and Academic Merit Award, Peking University	Jun. 2022
Fung Scholarship, The University of Hong Kong	Dec. 2023

Skills

Programming	C, C++, Python (NumPy, pandas, PyTorch), Rust, LaTeX
Research	LLM post-training and evaluation, AI for Science, generative modeling, quantum simulation
Languages	Chinese (native), English (TOEFL 100, CET-6 634)
